

INVESTOR DECK · 2026

Find your home in Algeria.

The trusted local marketplace for short-term stays — real homes, real hosts, cash-friendly, and a smart in-home experience.

A real market — poorly served by global platforms.

Algeria has rising domestic and inbound travel demand, but the dominant booking platforms are built for card-first, English-speaking markets.

Underserved demand

Families, business travelers and diaspora visitors are actively searching for trustworthy short-term rentals across Algerian cities.

Cash still dominates

Card and online payments are limited. Global platforms can't transact — local players that accept cash win the booking.

Language matters

Hosts and guests speak Arabic and French. A truly trilingual product (AR · FR · EN) earns trust on both sides.

Bayti.vip — Algeria's authentic short-stay marketplace.

A trilingual booking platform that connects travelers with real Algerian homes, managed by real hosts — with a smart in-home experience guests remember.

- Authentic homes

- Real hosts

- Cash accepted

- AR · FR · EN

- Smart TV welcome

- Smart door access

Real travelers. Real reviews. Real momentum.

Bootstrapped traction in our first year of operations — built without paid advertising, on word of mouth and host relationships.

4.8★

Average rating

“The welcome screen on the TV felt like staying in a 5-star hotel — and they took cash.” — guest, Béjaïa

Booking that fits Algeria — in the language guests speak.

Easy search

Browse by city, region, and group size across Algeria.

Verified homes

Real photos, amenities, location and host profile.

Trilingual

Arabic, French and English — end-to-end.

Cash on arrival

Book without a card. Pay the host on check-in.

Verified reviews

Choose with confidence from real guest feedback.

Local support

Human help in your language, before and during the stay.

A TV that welcomes every guest by name.

Every Bayti apartment ships with a 4K TV running our welcome app. Personalized, multilingual, updated remotely.

● Personal welcome

Guest name + welcome message in their language.

● Practical info

Wi-Fi, checkout, support number — always visible.

● Local picks

Restaurants, beaches and things to do nearby.

● Door code

Smart-lock PIN displayed only during the stay.

Karim Benali

Wi-Fi Bayti_101 / BejaiaSea2026

Checkout 11:00 · Support +213 660 00 00 00

Door code 482 915

Guests open the door from their phone.

Every apartment ships with a ZKTeco ML300 smart lock paired to the ZSmart app. On booking, the guest gets one link — install, pair, unlock.

1

Book on bayti.vip

Guest confirms reservation — cash or online.

2

Receive one link

SMS / WhatsApp link sent automatically with the dates.

3

Install ZSmart app

One tap install. The lock is pre-paired by our team.

4

Open the door

Tap UNLOCK — or use the 6-digit PIN on the TV as backup.

Hardware: ZKTeco ML300 + ZSmart app

Add-ons that make the stay feel ready, not improvised.

Guests pick extras when booking — we deliver them to the apartment before check-in. New revenue stream, zero friction.

Portable Wi-Fi modem

4G modem with local SIM for guests on the move.

Baby cot & bedding

Travel cot, clean linens, mosquito net.

High chair

Stable high chair for meals — delivered cleaned.

Car seat

Group 0/1/2 car seats for taxi or rental car pickups.

Beach kit

Umbrella, towels, cooler — for Béjaïa's beaches.

Kitchen pack

Coffee, tea, oil, salt, spices, breakfast basics.

Airport transfer

Pre-booked driver — meet & greet at the airport.

Laundry service

Wash & return within 24h, picked up from the door.

One assistant, three conversations, zero missed messages.

One dashboard for owners, cleaners and managers.

Bayti is a full operations platform, not just a listing site. Everything a property team needs in one

Property management

All listings, photos and pricing in one place.

Bookings & calendar

Track arrivals, departures and availability live.

Cleaning tasks

Auto-schedule turnovers between stays.

Team & roles

Owner / manager / cleaner / front-desk permissions.

QR sign-in

Staff log in by scanning a code — no passwords.

1-click import

Bring existing Airbnb listings over in seconds.

A 24/7 assistant for guests and operators.

Locally-aware AI that answers in Arabic, French and English — and quietly automates the busywork.

WhatsApp auto-reply

Answers guest questions (check-in, Wi-Fi, checkout) day and night, in their language.

Operational automation

On each booking, auto-creates the cleaning task and sends the guest a clean confirmation.

Content & translation

Drafts listing copy and translates it into all 3 languages.

Safety: the assistant suggests and informs. A human owns money and access decisions.

Six reasons global platforms can't catch us locally.

Authentic & local

Real Algerian homes, real hosts.

Cash payments

Built for how Algeria actually pays.

Truly trilingual

AR · FR · EN, end-to-end.

In-home tech

Smart TV + smart door experience.

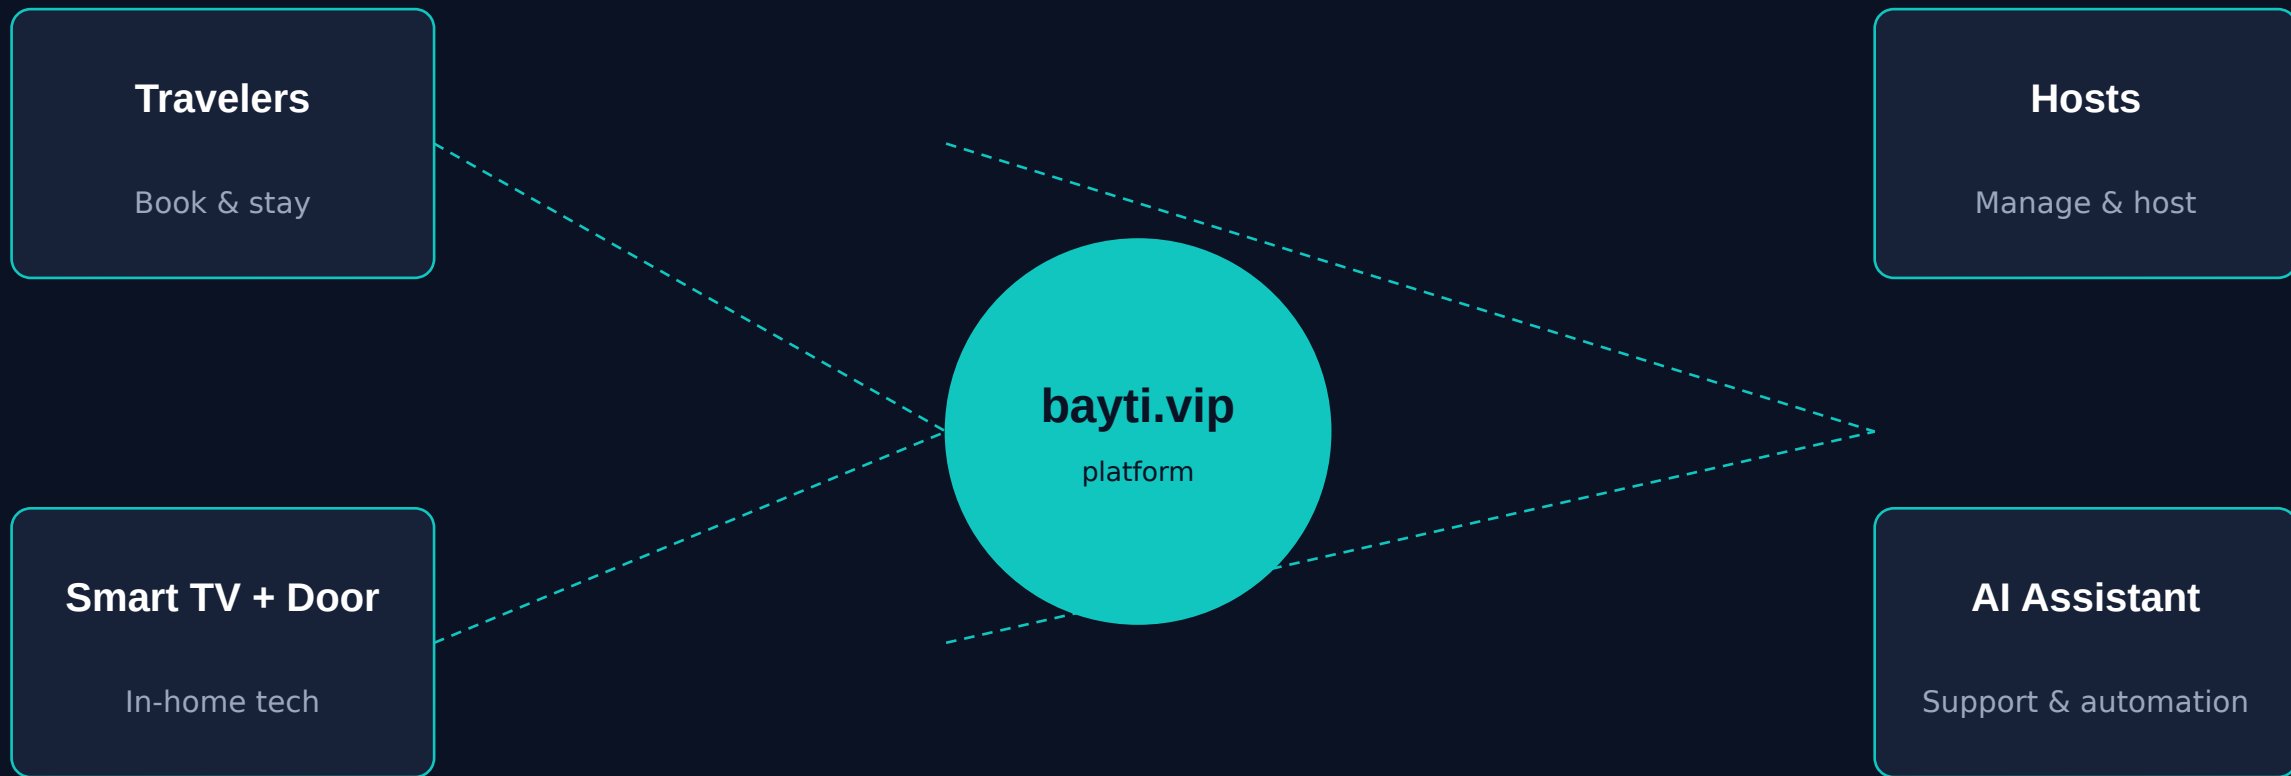

Trust

Verified reviews and local support.

4.8★ service

Guest satisfaction at the core.

One platform. Four connected sides.

From live product to national platform.

LATER

Vision

- 10 cities across Algeria
- Online payments (CIB / Edahabia)
- Native mobile app
- API for property managers

We're raising to scale from 3 to 10 cities.

Capital goes into hardware (TVs + smart locks), host onboarding across new cities, and the AI assistant rollout.

40%

Hardware & in-home rollout

Smart TVs + ZKTeco ML300 locks across new units.

30%

Host acquisition

Onboarding teams and incentives in 7 new cities.

20%

Product & AI

WhatsApp assistant, native app, payments integration.

10%

Brand & marketing

Local partnerships, content, paid acquisition.

OUR VISION

Become the reference for authentic stays in Algeria.

Let's build it together.
